

More value from nearby services – at LDC and Business Village

Does your company provide value-added services for other companies, in marketing, customising, presales or after-sales services, technical support, or the repair or packaging industries, for example?

Are you looking for a location with few restrictions, which grows with your company?

Are you in search of potential customers in your vicinity from the technology, logistics, information technology and communications industries?

At NORDPORT we offer you good terms for attractive commercial space in order to realise customised building solutions at both the South Portal and Business Village districts.

The benefits for you at NORDPORT:

- Close proximity to suppliers of technology, logistics, air cargo, information technology and communications services
- A central location in the metropolitan region of Hamburg that provides for close contact with customers
- An easily accessible location close to the city centre in the metropolitan region of Hamburg
- Next to Hamburg Airport
- Few structural and corporate restrictions
- Space to expand
